VISN I PROGRESS

EBA is now in the developmental stages for the VISNI Facility Master Plan after finishing up the first round of user meetings for the five Master Campuses this month. EBA is developing the Facility Master Plan for VISN I, and is working closely with leaders in the VISN I system to produce a plan which will benefit Veterans for decades to come by creating streamlined medical facilities, clear communication methods, and making the VA Health Care System even more accessible to those who need it.

ICC EAST IS ALMOST THERE

The ICC East Location in Laurel, MD will soon open its doors to support Maryland’s major new thoroughfare between Montgomery and Prince George’s counties. The new facility is currently in its final stages of construction administration led by EBA. Construction is currently set to be finished with an April move-in date.

Look for more details in future editions.

NEW WEBSITE LAUNCH

EBA launched its new website this week. The new design features streamlined communication methods, a comprehensive portfolio of projects, services, and experience, and a fresh design with mobile viewing capabilities. Feel free to peruse the website, and give us your feedback. (Use our feedback form in the contact section!)

MARTINSBURG IDIQ

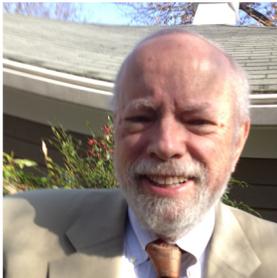

The VAMC Martinsburg exercised an option year of a five year IDIQ with EBA, making the decision to keep EBA onboard for continuing projects at the VAMC in Martinsburg, WV. Previous projects with the VAMC Martinsburg have included renovations, new additions, and elevator upgrades. We look forward to the coming year with this exciting contract opportunity.

BILLINGS

The Department of Veterans Affairs engaged EBA to develop the technical portion of an SFO, which served to solicit proposals to construct a 46,000 SF Community Based Outpatient Clinic (CBOC) in Billings, MT. The Technical Evaluation Board met recently in “The Big Sky” state to review technical proposals received for the new clinic.

NEWEST ADDITION

EBA is proud to welcome its newest addition to the EBA Team, Allen Berkowitz. With a Ph.D. in Mathematics, Dr. Berkowitz brings to the EBA Team a wealth of experience from years with the Department of Veterans Affairs. His experience with SCIP process and strategic planning has been a major enhancement for EBA's on-going work with the VISN I Master Plan. Allen was a member of the VISN 5 strategic planning group and was actually a guest panelist for consultation at several of the EBA led, VISN I workshops in the fall of 2011. His transition from the VA to EBA was a welcome addition. Welcome, Allen!

EBA SUMMER SLAM

EBA IS GETTING READY FOR SUMMER!

We're knee deep in planning the most awesome event of 2012: Summer Slam. Please keep an eye on your mail, we will be sending out invitations soon.
